

1810.02 Manifesting of Non-Hazardous Liquid Industrial Waste Shipments

Issued January 1, 1994

SUBJECT: Manifesting of Non-Hazardous Liquid Industrial Waste Shipments.

APPLICATION: Executive Branch Departments or Sub-units which generate and transport liquid industrial waste to a storage, treatment or disposal facility.

PURPOSE: To track liquid industrial waste from the point of generation to point of final disposition.

CONTACT AGENCY: Department of Natural Resources (DNR) - Waste Management, Manifest Unit.

TELEPHONE: 517/373-2730

FAX: 517/373-4797

SUMMARY: Any Executive Branch Department or Sub-unit may obtain, by telephone, a required Michigan generator's identification number and forms necessary to ship non-hazardous wastes. The DNR Manifest Unit receives copies of the completed manifests which are filed and later are sent to the State Record Center.

APPLICABLE FORMS: U.S. EPA Form 8700-22 (rev. 9/88) - Uniform Hazardous Waste Manifest.

PROCEDURES:

Agency:

- Telephones the Manifest Unit to request a Michigan generator's identification number and to discuss the number of manifests needed for its shipment.
- Contacts a licensed liquid industrial waste transporter to pick up its waste.
- Reads back of the manifest prior to arrival of transporter.
- Fills out the manifest per instructions on reverse, signs and dates.

Transporter:

- Signs and dates the manifest on the appropriate line.
- Leaves 2 copies of the manifest with the generator.
- Transports the waste to a properly licensed hazardous waste treatment, storage, and disposed (TSD) facility.

Generator:

- Sends 1 to DNR (address on bottom of manifest) and retains 1 for his/her records.

TSD Facility:

- Owner/operator signs and dates the remaining copies of the manifest, returns a copy to the generator, and sends 1 to the DNR, when waste is received.

Agency:

- Keeps copies for 3 years.
